

RESEARCH INFORMED CONSENT FORM

STUDY TITLE: Evaluating interactive AI (IRB-FY2026-11622)

INVESTIGATOR(S): Tal Linzen

FUNDING SPONSOR: National Science Foundation

INVITATION TO BE A PART OF A RESEARCH STUDY

You are invited to participate in a research study. This form has information to help you decide whether or not you wish to participate - please review it carefully. Your participation is voluntary. Please ask any questions you have about the study or about this form before deciding to participate.

PURPOSE OF THE STUDY

The purpose of this study is to develop better interactive AI assistants and evaluate them.

ELIGIBILITY TO PARTICIPATE

You are eligible to participate in this study if you are an adult based in the US.

You should not participate if you are under 18.

DESCRIPTION OF STUDY PROCEDURES

If you agree to participate, you will be asked to read, listen to, or complete tasks involving text, audio, or interactive activities (such as navigating a map, playing games, or learning a made-up language), and to answer questions about what you read, heard, or did. Materials may be in English or in a made-up language that you will learn during the experiment. Your keystrokes and mouse movements may be recorded to measure your responses and reading times.

In some studies, materials will be labeled as written or generated by a human or an AI system; this labeling may not always reflect the true source. Which study procedures you complete will be determined by random assignment after you provide consent. Most participants will complete a single session lasting up to 60 minutes; some versions of this study involve up to 5 sessions completed on separate days.

RISKS OR DISCOMFORTS

This study involves the following risks or discomforts:

Please tell the researchers if you believe you are harmed from your participation in the study.

BENEFITS

It is hoped that this study will help to develop AI systems that are better at interacting with people.

You are not expected to directly benefit from participation in the study.

COMPENSATION

You will receive compensation in proportion to the length of the session.

VOLUNTARY PARTICIPATION

Participating in this study is completely voluntary. You may choose not to take part in the study or to stop participating at any time, for any reason, without penalty or negative consequences.

If you withdraw or are withdrawn from the study early, then we will not keep information about you that is already collected.

PRIVACY & DATA CONFIDENTIALITY

In this study, you may be asked to provide information that could be used to identify you personally. This information will be kept confidential. Only researchers and others that will keep the information confidential (e.g., regulatory agencies or oversight groups) may access information that could personally identify you. Any study records that identify you will be kept confidential to the extent possible by law.

Any study records that include your name will be kept in a password-protected database. On all records of test results we will use a code number rather than your name.

Future Use of Data

Information about you collected for this study may be shared with other researchers, used for other research studies, or placed in a data repository. These studies may be similar to this study or completely different. All information that could identify you will be removed before sharing the data or using it for other research studies. We will not ask you for additional permission before sharing the information.

ACCESS TO YOUR STUDY INFORMATION

We will not give you access to the information that is collected about you in this study.

CONTACT INFORMATION

You are encouraged to ask questions at any time during this study. For information about the study, contact Tal Linzen at linzen@nyu.edu.

If you have questions about your rights as a research participant or if you believe you have been harmed from the research, please contact the NYU Human Research Protection Program at (212)998-4808 or ask.humansubjects@nyu.edu.

AGREEMENT TO PARTICIPATE

By checking below, you are agreeing to participate in this study. Make sure you understand what the study involves before you agree. If you have questions about the study after you agree to participate, you can contact the research team using the information provided above. You may [print/keep] a copy of this form.

☐ *I agree to participate in this research study.*
